WHEREAS Cherokee County, pursuant to K.S.A. 19-101 et seq., has the authority to determine its local affairs and to establish such regulations as are necessary for the protection of the public health, safety, and welfare;

WHEREAS Cherokee County does not presently provide regulations or standards that are specific to Commercial Solar Energy Projects;

WHEREAS Kansas statutes authorize counties to establish land development regulations to address their local development concerns and needs;

WHEREAS due to a number of impacts that Commercial Solar Energy Projects have or might have on both nearby property owners and also future development, the Board of County Commissioners recognize that a need exists to develop, consider, and potentially adopt land development regulations and/or standards that may pertain to such property uses; and

WHEREAS the Board requires additional time to complete the task of developing, considering and potentially adopting any regulations and/or standards; and

WHEREAS pursuant to K.S.A. 19-101, et seq., Cherokee County has the police power and statutory authority to regulate the conduct of development through this Resolution.

WHEREAS on September 9, 2024 the Board extended the solar moratorium until September 9, 2025.

WHEREAS on July 2, 2025 the Cherokee County Planning Commission requested the Board of County Commissioners extend the Solar Moratorium until July 1, 2026. Such request was based on pending development of a Comprehensive Plan, expected to be complete in June 2026.
